TO WHOM IT MAY CONCERN;

As the corporate director for Language Teaching Programs for the **Academy of International Business** in Moscow, with a client base that includes some the largest and most prestigious international companies in the world and more than thirty-five language teachers working for us, you can well understand that seeking and retaining reliable teachers is one of our clear priorities: the essential backbone of our business!

We hire teachers here on two levels: those who are educated to be language teachers, and the second who are professional in manner but need some training and support to get started. John Milkulenska came to us in the second category, worked for us with Reebok Corporation as an English teacher, and truly excelled in his duties.

In actual fact, and to keep this short and to the point, John was in the top five most popular teachers that worked for us during that period, as well as keeping a very full working schedule at the Moscow Times newspaper.

He comes with our highest recommendation!

Sincerely,

Craig Jackson
Corporate Programs Director
